

COVID-19 Changes for CCP Programs

- The GISD is working to stop the spread of COVID-19 by minimizing the number of people who enter the buildings. Parents/guardians will be required to follow the schools drop off/pick up procedures. Visitors, including parents/guardians, may enter the school building if it is critical and with an appointment.
- Mandatory Health Screenings will be done, including temperature taking before entry to any building. Please be aware this could add time to the drop off process. Please plan accordingly. Parents will be required to wait while their student has the health screening.
- Parents must notify the school if their student has any serious communicable diseases such as COVID-19 or other like diseases that may present potentially serious health problems for those who come in contact with the disease or the disease carrier.
- Per the CDC's guidance for reopening schools, the District is implementing the following measures to mitigate the spread of COVID-19 at school:
 - Students will be reminded often to wash their hands for at least 20 seconds with soap and water or use hand sanitizer when soap and water are not readily available. The District will provide hand sanitizer.
 - Students will be reminded to cover their mouths when coughing or sneezing.
 - Students will be expected to "social distance" (6 feet apart)
 - Face coverings will be used in classrooms at the parent's request for three and four year old students. Four year old students will wear a face covering in hallways and common areas. Face coverings should never be used on children under age 2.
- Following LARA guidelines, no student will be permitted to attend school if he or she has a fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, rash, nausea or vomiting, and/or diarrhea. Parents/guardians must plan for alternate childcare. A sick student will be expected to be picked up immediately.
- Students who exhibit symptoms of COVID-19 while at school will be separated from the class and moved to a designated area. Adult supervision will be provided at all times. A parent/guardian will immediately come and pick the student up from school.
- If a staff member or student exhibits multiple symptoms of COVID-19, you suspect possible exposure, or an individual tests positive for COVID-19, the individual must stay home until:
 - They have been fever-free for at least 72 hours without the use of medicine that reduces fevers and other symptoms have improved

AND

 - At least 10 days have passed since your symptoms first appeared

OR

 - A negative COVID-19 test

Taken from State of Michigan LARA Guidelines for Safe Child Care Operations During COVID-19

The GISD may require medical release from their health care provider before returning to school.
